Hello,

Student licences are only issues through colleges/universities who use the software for teaching purposes.

Please ask your educational institute to contact us for full details.

Thank you

Kind Regards
Jon O'Brien

Subject: Labcenter Web Site Enquiry

An enquiry has been submitted from the web site, as follows...
Name: Oleh Onyshchenko

Email: seesmwork@gmail.com

Subject: Inquiry about Proteus VSM for university usage

Question Details: Hello, i'm a student of a Ukrainian univesity called "Zaporizhzhia Polytechnique" (https://en.wikipedia.org/wiki/Zaporizhzhia_Polytechnic_National_University), we have a course on a 3rd year of Software Engineering program called "Software engineering of embedded systems" (<https://moodle.zp.edu.ua/course/info.php?id=315>) and we need to use Proteus VSM for much of its tasks, but our educators don't provide a licenced version of it

and i don't want to download anything unlicensed illegally. Would it be possible to obtain a licensed copy of it for me or even for a larger group of students?
